

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 17 April 2006. In the Official Action, the Examiner has found three inventions, namely, Group I directed to Claims 1-18 drawn to a method of treating a cytopathological disease in mammal; Group II directed to Claims 19-25 drawn to a method for restoring damage and/or deteriorated tissue in a mammal; and Group III directed to Claims 26-32 drawn to a method for rejuvenating a chronically fatigued mammal. The Examiner has required that Applicant choose one Group for further prosecution in this case.

By this Amendment and Response, Applicant elects Group I for further prosecution. Further, Applicant elects Claims 1-7, 9-11, 13, and 15-18 for further prosecution. Claims 8, 12, 14 and 19-32 have been withdrawn.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,  
FOR: ROSENBERG, KLEIN & LEE
